

POSTDOCTORAL ASSOCIATE

The experimental high-energy physics group at Boston University invites applications for a postdoctoral position in the CMS group. The successful candidate is expected to play a leading role in searches for new physics and contribute to the group's involvement in the CMS muon system and level-1 trigger upgrade.

Candidates for the position should have a PhD in Physics and demonstrated excellence in high-energy physics research.

Applicants should send a statement of interest and CV, and arrange for at least three letters of reference to be sent, to Prof. Indara Suarez at isuarez@bu.edu

Review of applications will begin immediately and continue until the position is filled.

Applications from women and underrepresented minorities are particularly encouraged. The University is committed to building a culturally, racially and ethnically diverse academic community dedicated to the highest level of excellence in teaching, research, and scholarship. BU is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law. We are a VEVRAA Federal Contractor.
