

Post-doctoral research associate in particle physics

The ATLAS group at the University of Sheffield is seeking to appoint an experienced and enthusiastic Research Associate to lead group activities in the area of searches for SUSY top squarks with fully hadronic final states. You will be required to develop and maintain a high profile within ATLAS by contributing effectively to central SUSY working group activities, and also to supervise PhD students working in this area. You will also be required to undertake a limited amount of service work for the collaboration, and also to carry out shifts and operation tasks.

You will hold a PhD (or equivalent experience) in Particle Physics or a related discipline and will have experience of particle physics data analysis.

The post is available from 1 January 2018 or soon afterwards on a fixed term basis until 30 April 2020.

For more details about the post and the university please go to goo.gl/6qNtvz. Further details can be found in the linked document 'About the Job'. Please apply by clicking 'Apply' at the top of the page at that link.

For informal enquiries, please contact Prof. Dan Tovey (d.r.tovey@sheffield.ac.uk)
