

The Hong Kong University of Science and Technology (HKUST) is the leading science and engineering school in Asia and a member of the ATLAS Collaboration through the Hong Kong ATLAS Cluster (HKUST, HKU and CUHK). The HKUST activities in ATLAS includes, but is not limited to the Higgs and BSM physics, ITk construction, upgrade of the ATLAS muon system and contributions to the reconstruction software.

The ATLAS group is now looking an outstanding candidate to nominate for the HKUST Research Assistant Professors Scheme 2025. This position is initially for 2 years with a possible 1-year extension, subject to successful RGC grant application. The successful candidate is expected to actively contribute to the activities of the HKUST ATLAS group and of the Hong Kong ATLAS Cluster, to deliver a limited amount of the University-level teaching, to supervise Research Postgraduate Students and to apply for research funding. Extended periods of stay at CERN can be considered, subject to mutual agreement.

The application package will consist of:

- A statement of interest (max. two pages);
- An executive summary of the research grant proposal (max. four pages)
- A candidate's CV
- Three letters of reference to be sent by the referees to kprok@ust.hk

To ensure full consideration, the complete applications should be received before 28 of March. For all enquiries and for applications please contact Prof. Kirill Prokofiev at kprok@ust.hk
